ABSTRACT

Graphic application is a development application which it can help peoples to paint with computer device. There are many kind of graphic application, the examples are Inkscape and KolourPaint.

Inkscape is a Vector Graphic Application which the painter can change the image details without force the old image or old worksheet and Inkscape is support Scalable Vector Graphic (SVG) standard. Layers, colours, and measuration are the Scalable Vector Graphic (SVG) image standard parameters.

KolourPaint is a basic graphic application which the painter can paint with familiar tools and it is easy to learn. KolourPaint is similar with Windows application, it called Microsoft Paint. KolourPaint can process the simple tasks which it addressed to beginners.

FOREWORD

Thank God, I have been finished this project with title:

Comparing Inkscape and KolourPaint Graphic Applications in Improving Colour and Image Quality on Painting.

In this opportunity, writer would thanks to:

1. My Father, Mother, Brother, Grandmother and all my family for their prayers and supports.
2. My Supervisor Mr. Suyanto E.A, Ir, M.Sc and All Lecturers in Faculty of Computer Science for their support.
3. My beloved Luckyta Widjaja, Diar Mayangsari, S.Psi., Dyah Kusumaningtyas, S.Kom., Ferdyanto Handoyo, S.Kom., and all my friends who always praying and supporting.
4. FACULTY OF COMPUTER SCIENCE SOEGIJAPRANATA CHATOLIC UNIVERSITY.

Finally, writer apologizes that this project is not perfect. Hopefully, this project may be useful for everyone.
