**BAB I
PENDAHULUAN**

1.1. Latar Belakang Penelitian

Laporan tahunan merupakan cerminan kinerja manajemen selama satu tahun sekaligus merupakan sumber informasi bagi shareholder dan stakeholder dalam pengambilan keputusan. Oleh karena itu, informasi yang terdapat dalam laporan tahunan harus transparan, lengkap dan reliable sehingga investor dapat menggunakan informasi tersebut dalam pengambilan keputusan. Dengan demikian, informasi yang terdapat dalam laporan tahunan ini akan tercermin dalam harga saham perusahaan. Semakin baik kinerja perusahaan, maka harga saham juga akan semakin tinggi.

Selain informasi yang tersaji dalam laporan, informasi dari luar perusahaan juga dapat mempengaruhi pergerakan harga saham seperti adanya kenaikan suku bunga dan kebijakan bank. Hal ini mungkin terjadi apabila laporan yang disajikan oleh perusahaan dianggap tidak berkualitas dan reliable oleh investor sehingga investor akan menggunakan informasi dari luar dalam pengambilan keputusan. Jika investor lebih mengandalkan informasi dari luar maka harga saham akan bergerak tanpa mpedulikan informasi yang tersaji dalam laporan perusahaan. Hal ini akan menyebabkan munculnya harga baru yang tidak dapat diprediksi sehingga akan berdampak pada nilai perusahaan.

=====2/74=====

2

Pergerakan naik dan turunnya return saham perusahaan sesuai dengan return pasar disebut sinkronisitas harga saham. Sinkronisitas harga saham menangkap sejauh mana informasi perusahaan tercermin pada harga saham. Jika perusahaan menyajikan laporan dengan informasi yang berkualitas baik maka investor akan mengandalkan informasi perusahaan dibanding informasi eksternal. Informasi perusahaan ini akan tercermin
