## APPROVAL AND RATIFICATION PAGE

### THE IMPLEMENTATION OF CYK ALGORITHM TO SEPARATE SENTENCE-FORMING ELEMENTS IN INDONESIAN

by

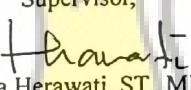

TEGUH TRI SULIANTO – 14.K1.0014

This project report has been approved and ratified

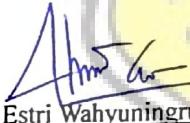

by the Faculty of Computer Science on January 22, 2018

With approval,

Supervisor,

  
Rosita Herawati, ST., MIT  
NPP : 058.1.2004.263

Examiners,

1.)   
Shinta Estri Wahyuningrum, S.Si., M.Cs  
NPP : 058.1.2007.272

2.)   
YB. Dwi Setianto, ST., M.Cs  
NPP : 058.7.2017.021

3.)   
Suyanto EA, Ir., M.Sc  
NPP : 058.1.1992.116

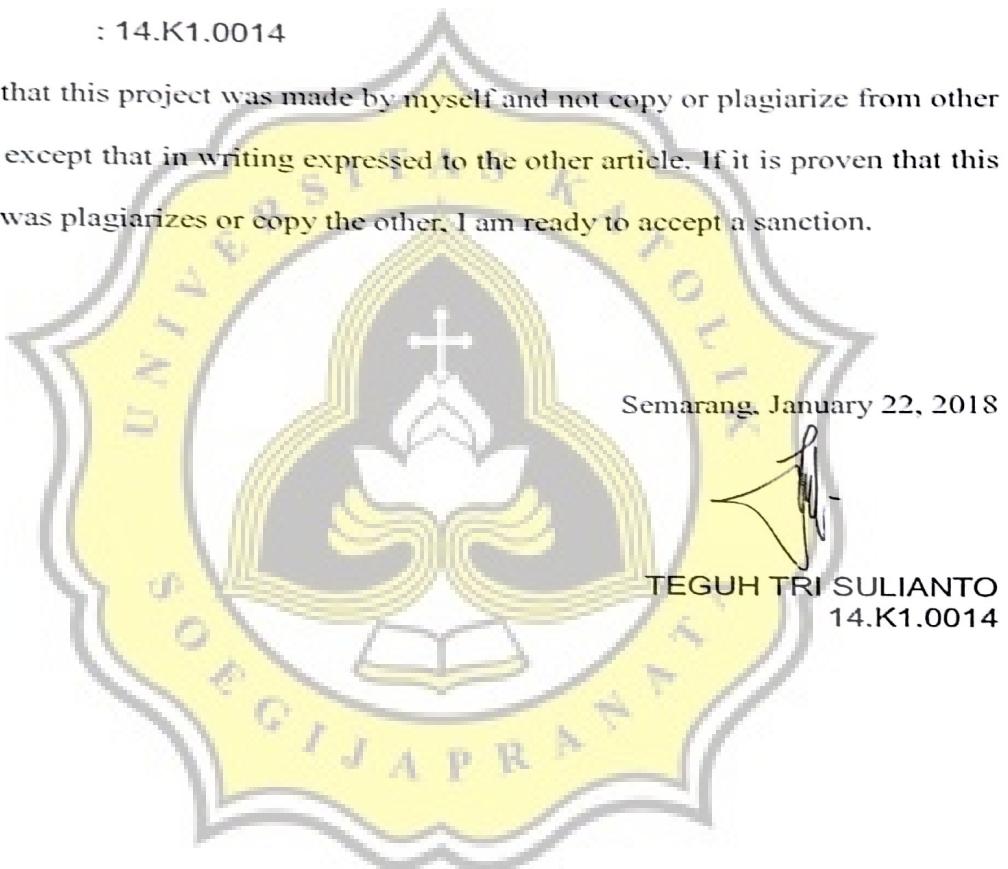

Dean of Faculty of Computer Science,  
  
Erdhi Widyarto Nugroho, ST., MT  
NPP: 058.1.2002.254

### **STATEMENT OF ORIGINALITY**

I, the undersigned:

Name : TEGUH TRI SULIANTO  
ID : 14.K1.0014

Certify that this project was made by myself and not copy or plagiarize from other people, except that in writing expressed to the other article. If it is proven that this project was plagiarizes or copy the other, I am ready to accept a sanction.

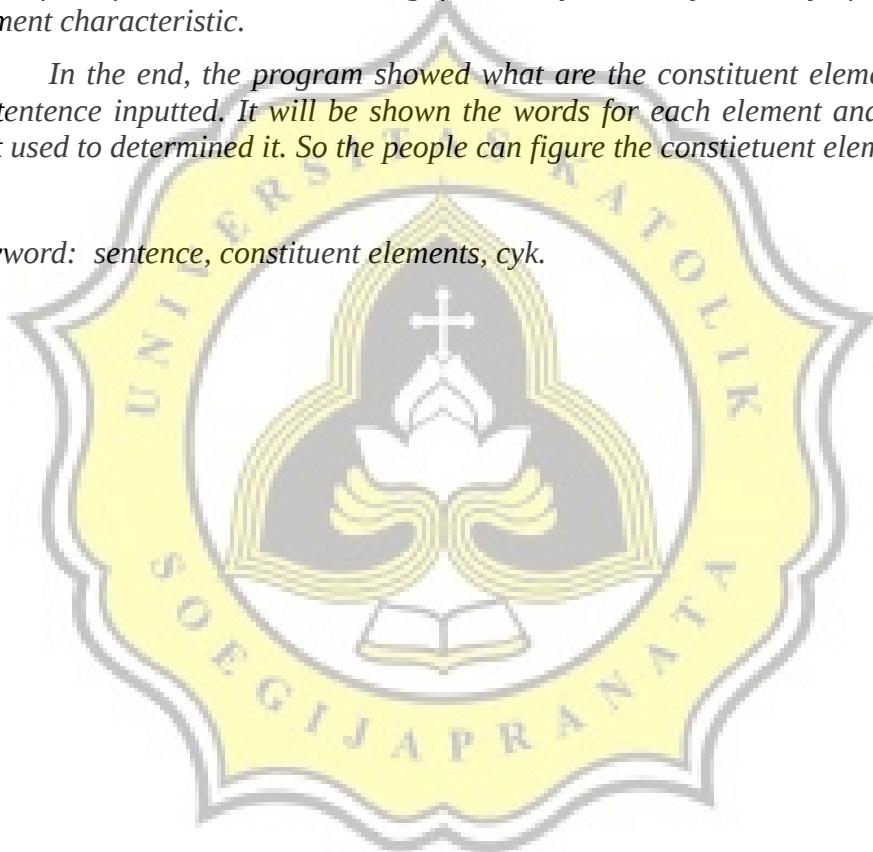

## ABSTRACT

A sentence contains some constituent elements. Those elements has it own function. The four main elements are subject, predicate, object, and prepositional phrase. Sometimes, people confused while determining those elements.

The program made for helping people who confused determined what are the constituent element in a sentence. The sentence can be inputted and the program identified the sentence that inputted. It started by separating the sentence into words and put it inside the cyk matrix table. After that, the program indentified of each word to matching if there any similarity with any of constituent element characteristic.

In the end, the program showed what are the constituent elements of the sententence inputted. It will be shown the words for each element and the rules that used to determined it. So the people can figure the constietuent element.

Keyword: sentence, constituent elements, cyk.

## PREFACE

This project has some several chapter. The first chapter is about the reason why took this project. The second chapter is telling the journal to support in the making of this project but also the difference between the journal of reference an this project. The third chapter is tell about the step to finish the project. The fourth chapter is use case diagram and flowchart to explaine more about the process. The fifth chapter is implementation of the project and show the result of testing of the program. The last chapter is showing the conclusion of this project.
