ABSTRACT

Executive Information System of admissions system aims to inform the new admissions process is still done manually into a computerized. In making this information system applications using the programming language PHP and MySQL as database.

This made the system to process the data can help new students, new students selecting the data, and the data registration. But it's also more time efficient and can help in the process of making the required reports such as student data reports are signed, accepted, and registration. Soegijapranata Catholic University in new admissions to the program based on the track and study.

FOREWORD

First author prayed to God Almighty for the completion of the final report on time.

Final Report with title Executive Information System in Program Study Teknik Informatika Faculty of Computer Science Soegijapranata Catholic University.

In this moment I also want to say a big thanks to :

1. Mr. Marlon Leong as Dean in Faculty of Computer Science, Soegijapranata Catholic University in Semarang.
2. Mr. Marlon Leong as Lecturer Preceptor which has give advice and guidance so this Final Project can complete on time.
3. The Lecturer and Staff Faculty of Computer Science Soegijapranata Catholic University in Semarang.
4. And for all my friend which i can say his name one by one, i say big thanks to all of you.

And the final word i say this Final Report is still far from perfect, therefore i hope for any suggestions and criticism for advancement this Final Report. Hopefully this Final Report can be useful for anyone who is interested.
