

CHAPTER VI

CONCLUSION AND FURTHER RESEARCH

6.1 Conclusion

This program could execute C program use Java Language with optional condition. Parsing is very suitable for make this C compiler program. Output of this program is every step of parsing and the final result.

6.2 Further Research

This program still need a further research. That is how to do double loop, how to find more efficient way to matches the pattern of the line. Show the pattern error more detail in JSP page, more detail when checking the pattern.
