

CHAPTER VI

Conclusion and Further Research

6.1 Conclusion

For conclusion, this program can help tourists to find point of interests in Semarang. Tourists can find what category of point of interest they are going to visit. This program also can help tourists to get direction from one point of interest to another point of interest. So, tourists can reach to point of interests they are going to visit without go through further way or go to wrong place.

6.2 Further Research

For further research, this program can be improved for better appearance and feature. To improve appearance can be added more animation and interactive layout so user can be interested and enjoy using the program. To improve feature can be added various kind of travel mode in direction menu. Also, can be added suggestion place for similar place where tourists going to.
