

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the writer presents the suggestion and conclusion regarding the finding of the research. The first section is the conclusion of this research and the second section is the suggestion for further research.

5.1 Conclusion

This research aims at finding out the students and teacher's views on the writer's product. Based on the data collection from quantitative and qualitative data, the conclusion can be drawn. The writer concluded that the result of both quantitative and qualitative data were very positive with the highest mean value 4.77. It can be concluded as positive response as indicated in improving their reading aloud skills. The teacher's response also indicated as positive in improving reading aloud skills to children.

5.2 Suggestion

Due to the limitation of the writer as an Englishpreneurship student, the writer only used 1 English teacher to give product's judgment and 1 lecturer to validate the product. The participants to collect the qualitative data may be less representative. The suggestion for further researcher is to tested the product with wider respondents. So that the further researcher has more reliable data from many point of views. Further researcher might consider using another instruments such as testing the result after using the product so that the quality of the product can be accepted as reliable and usable product.
