

CHAPTER 5

IMPLEMENTATION AND TESTING

5.1. Implementation

the first web implementation project to do is, Web Browser to display the first Display on the Computer screen and then will then display according to the features of each.

The above index.php view is the first view of browsing the WebBrowser with <http://localhost/php/> to display the Nongme Village Web project to fill in the username and password, which permissions are „ **Login Aplikasi Web**„, to enter the Web Home view.

Illustration 5.1: Login Aplikasi Web

Menu 1

1. `<form id=login-form class="block-content form"action="cek_login.php" method="post">`
2. `<label for=username>Username</label> <input type=text`
3. `<input type=password name="password"></p>`

Home.php above this is after Login there are two possibilities that will happen, that Login Successful or Failed, if failed then must re-fill the username and password again, if it is Successful Login will display feature home up to Contact and also its contents.

and to click on each feature from home to the contact will also display as each contents of the name of the feature will be able to Edit, Delete, Add, Delete, return to the Home and exit the web application as well.

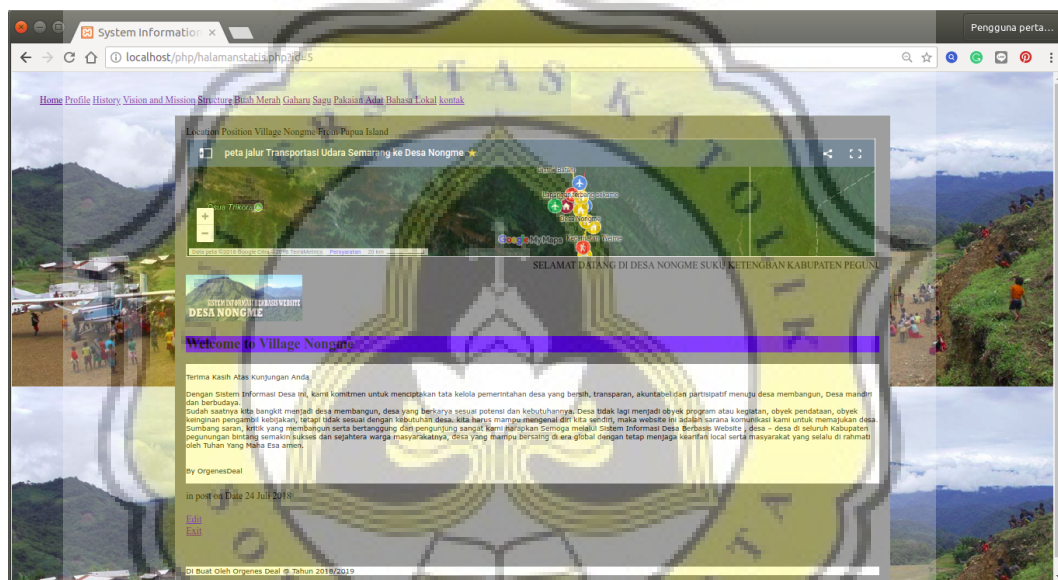

Illustration 5.2: Display Menu Home Web

Menu 2

4. `
`
5. `halamanstatis.php?id=5`
6. `<marquee > SELAMAT DATANG DI DESA NONGME SUKU KETENGBAN KABUPATEN PEGUNUNGAN BINTANG PROVINSI -PAPUA</marquee>`
7. `<?php $sqlindex=mysql_query("SELECT * FROM tblHalamanStatis WHERE id_halaman=5");`
8. `$dataindex = mysql_fetch_array($sqlindex);`
`</table><a class="btn btn-primary" href="halamanstatis_edit.php?id=`
`<?php`
`echo $dataindex['id_halaman'];`
`?>">`
`Edit `
`</br>`

5.2. Testing

In testing this will test for this web application can be accessed by the user or there are still error, it must first test in each feature and content of his text,

for the first test step one of the original features from the Home, to Edit, then Edit Static Page, then to Update, then go to the Editor, then click on a new page to create a new title and fill in the text, Picture the new and last news save and exit again to Home. that's the first test has succeeded in creating a new title, and its contents. More Complete Steps See the picture below:

1. The first test is the First Static Page Group starting from Home, Profile, History, Vision and Mission and Chart to perform as follows :
