ACKNOWLEDGEMENT

Firstly, the writer would like to thank Allah SWT, her manager of life. The writer also thanks her major sponsor: Drs.Y.E. Budi yana, MA. and her co.sponsor: Emilia Ninik Aydawati,SP.M.Hum., for their support, advices and patience to help her pass all challenges during the process of writing this thesis.

Secondly, the writer would like to thank her parents, brother and her boyfriend for their loves, care and prayer that enable her to pass the wonderful life. Then, the writer also wants to express her gratitude to all people who have given support and contribution directly or indirectly: all of her friends, Puspita,Vania, Pipit, and Dyah.

Last but no least, the writer would like to thank all the participants who helped her to complete her research.

FLY ME OVER

Alone in this mind regression
When even the spaces lock me to
But somehow you set me free
From all of the seas and ocean breeze
Your wind is the only soothe...

I need that, somehow can fly me free and fly me over, fly me higher...
Take me further...million miles away...
So blind of the wafe's intention...
I couldn't tell where it led me to..
But somehow I know it's you..

So fly me over, fly me higher..
Take me further, million miles away..
How long till you believe in me...

Abstract

Nowadays, there have been more and more Indonesian people who use foreign languages. In our country, foreign languages are not used in daily conversation. This fact will create difficulties for senior high school students who want to learn them. By knowing their own motivation in learning foreign languages, it can help to decrease those difficulties.

The purpose of this research is to find out the students' motivation in learning foreign languages, whether instrumental or integrative. The data were taken from the Language Class students in SMA Kesatrian 1 and SMA Kebon Dalem Semarang. There are 70 respondents who consist of 40 students from SMA Kesatrian 1 and 30 students from SMA Kebon Dalem.

To collect the data from the respondents, the researcher used closed ended questionnaire with five options, those are: strongly disagree, disagree, neutral, agree, strongly agree. The result of the research shows that both of Kesatrian 1 students and Kebon Dalem students have motivation in learning their foreign language, but they have different motivation in each foreign language.

Abstrak

Dewasa ini semakin banyak orang-orang Indonesia yang menggunakan bahasa asing. Di negara kita, bahasa-bahasa asing tidak di gunakan di dalam percakapan sehari-hari. Kenyataan ini akan menyulitkan siswa-siswa SMA yang ingin mempelajarinya. Dengan mengetahui motivasi mereka sendiri dalam mempelajari bahasa-bahasa asing, hal ini diharapkan dapat membantu mengurangi kesulitan-kesulitan tersebut.

Tujuan dari penelitian ini adalah untuk menemukan motivasi siswa-siswa dalam mempelajari bahasa-bahasa asing, apakah instrumental atau integrative. Data-data nya di ambil dari siswa kelas Bahasa di SMA Kesatrian 1 dan SMA Kebon Dalem Semarang. Responden berjumlah 70 orang responden yang terdiri dari 40 orang responden berasal dari SMA Kesatrian 1 dan 30 orang responden berasal dari SMA Kebon Dalem.

Untuk mengumpulkan data dari responden-responden, peneliti menggunakan kuesioner jenis closed ended dengan 5 pilihan, yaitu sangat tidak setuju, tidak setuju, netral, setuju, sangat setuju. Hasil dari penelitian ini menunjukkan bahwa baik siswa-siswa dari SMA Kesatrian 1 dan SMA Kebon Dalem sama-sama memiliki motivasi dalam belajar pelajaran bahasa-bahasa asing mereka, tetapi mereka mempunyai motivasi yang berbeda di masing-masing pelajaran bahasa-bahasa asing tersebut.
