ACKNOWLEDGEMENT

Foremost, I would like to express my sincere gratitudes to Jesus Christ. He always supports and blesses me as always. I would like to express my deepest appreciation to my major sponsor, Mr. Budiyana. Thanks a lot for your patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. and Mrs. Heny Hartono as my co – sponsor for willingly reviewing the manuscript in her thick schedule. She made several suggestions related to the thesis. Without their guidance and support, this thesis would not been finished.

Besides my sponsors, I would like to deeply thank my mother who always supports, encourages, prays, loves, and gives me a lot of motivation to me. She has spent much money and never complained about me. I would like to thank my beloved boyfriend Catur who has never stopped supporting me in every situation. For my sister Ayu who helped me to recorded the conversation. I hope that they will be proud of me. This is a pleasure to have a wonderful family. Thank you for making my life worthy.

My sincere thanks also goes to my beloved friends like Emi, Nita, Eni, Lucia, Titis and many more. Thanks for your loves and motivations. Also all the lecturers that have shared their knowledge to me and the administration staffs like Mas Haryo and Pak Kasno for answering my curiosity and my lack of knowledge about campus

info. I knew I would not be like this without all of your support. Thank for all the love, memories, laugh, tears we have made together. Thank you so much. Finally, it's done.

I do realize that my thesis is far from being perfect but I hope this thesis will inspire and give knowledge to the readers. I would also apologize for not mentioning my friends' names one by one. Thanks for all support, may God bless you all the time.

ABSTRACT

Jargon is an occupational and secret language, so it occurs in the occupational fields and only the people who work in the same field can understand it. This research aims to discover the jargons used in *togel* gambling and the morphologically to find out its word formation process of the jargons. So, this research was conducted within the domain of sociolinguistics and morphology.

The research belongs to qualitative research. The data were collected by recording the conversation among participants, transcribing it into document, then the writer validated with one of *togel* gamblers in Ampel and Tengaran areas. The writer found 72 jargon words of *togel* gambling. For word formation process, From 72 jargon words the writer found there are 46 jargon words (64%) with one process, 2 jargon words (3%) with two processes, 3 jargon words (4%) with other processes and then 21 jargon words (29%) with no process. Thus, we can conclude that jargon word with two processes is the least dominant one, and then followed by jargon words with no process, and the most dominant one is jargon word with one process.

Key word: Jargon, Togel, Morphology

ABSTRAK

Jargon adalah bahasa kerja dan rahasia, sehingga terjadi di bidang pekerjaan dan hanya orang-orang yang bekerja di bidang yang sama dapat memahaminya. Penelitian ini bertujuan untuk menemukan jargon yang digunakan dalam togel judi dan secara morfologis untuk mengetahui proses pembentukan kata. Jadi, penelitian ini termasuk dalam domain sosiolinguistik dan morfologi.

Penelitian ini adalah penelitian kualitatif. Data dikumpulkan dengan merekam percakapan antara peserta, menyalin ke dalam dokumen, maka penulis divalidasi dengan salah satu penjudi togel di Ampel dan daerah Tengaran. Penulis menemukan 72 kata jargon dalam perjudian togel. Untuk proses pembentukan kata, Dari 72 kata jargon penulis menemukan ada 46 kata jargon (64%) dengan satu proses, ada 2 kata jargon (3%) dengan dua proses, ada 3 kata jargon (4%) dengan proses lain dan ada 21 kata jargon (29%) tanpa proses . Dengan demikian, kita dapat menyimpulkan bahwa jargon dengan dua proses yang dominan, dan kemudian diikuti oleh jargon tanpa proses morfologi, dan yang paling dominan adalah kata jargon dengan satu proses.
