

## DAFTAR PUSTAKA

- Mindess, Sidney, Dan Young, J. Francis. 1981. *Concrete*, Prentice-Hall, Inc., Englewood Cliffs, New Jersey.
- Neville, AM (1999) *Properties Of Concrete*, Fourth and Final Edition, Pearson Education Limited, England.
- Peschard, A., Govin, A., Grosseau, P., Guilhaot. B., and Guyonnet, R. 2004. *Effect of Polysaccharides on The Hydration of Cement Paste in The Early Age*, Journal of Cement and Concrete Research, Author Manuscript, Vol. 34, No.11, 2153.
- Susilorini, R dan Suwarno, D. (2009). *Mengenal dan Memahami Teknologi Beton / Retno Susilorini dan Djoko Suwarno*. Semarang : Laboratorium Bahan Bangunan, Jurusan Teknik Sipil – Universitas Katolik Soegijapranata.
- Susilorini, Retno, Rr. M.I., Ganis, R.I., dan Nugraha, H.A., (2009), “The Performance of Low Dosage of Sucrose as 'Green' Admixture for Concrete”, Proceedings of National Seminar of KONTEKS 3, 6-7 May, UPH and UAJY, pp. S-219-226.
- Susilorini, Retno, Rr. M.I., Ganis, R.I., Nugraha, H.A., Syaefudin, I., and Ardi, S., (2008) The Using of Sugar Cane Liquid as ‘Green’ Retarder and Accelerator for Concrete Mixture. In: *Proceedings of National Symposium RAPI VII*, 18 December, Fakultas Teknik, Universitas Muhammadiyah Surakarta, pp. S-93 – S-98.
- Susilorini, Retno, Rr. M.I., (2009a), *Sugar Based Natural Admixture – A Breakthrough to Achieve ‘Green Concrete’*, Unika Soegijapranata Publisher, Semarang.
- Susilorini, Retno, Rr. M.I. (2009b) *Pemanfaatan Material Lokal untuk Teknologi Beton Ramah Lingkungan yang Berkelanjutan*, Laporan Akhir, Hibah Kompetensi Batch II Tahun Pertama, DP2M Ditjen Dikti, Jakarta.
- Susilorini, Retno, Rr. M.I. (2010) “The Use of Sugar, Sucrose and Sugar Cane Liquid Mix as Sugar Based Admixture for Mortar”, Prosiding Seminar Nasional Teknik Sipil VI “Pengembangan Infrastruktur dalam Menunjang Pembangunan Ekonomi Nasional”, Program Studi Pasca Sarjana Jurusan Teknik Sipil, ITS, Surabaya, pp. 243-250.
- Syaefudin, I. and Ardi B, S. (2008) *Kinerja Kuat Tekan Beton dengan Accelerator Alami Larutan Tebu 0.3% dari Berat Semen*, Tugas Akhir, Program Studi Teknik Sipil, Unika Soegijapranata, Semarang
