

CHAPTER V

CONCLUSION AND SUGGESTIONS

This chapter consists of two parts, conclusion and suggestions.

5.1. Conclusion

From the research done, the researcher can conclude that the pictures help mobile legend players to understand the meaning of the slang words. It can be proven by the higher percentage in the second questionnaire. There are 6 out of 25 slang words that can be answered more by Mobile Legend players. The same number of the participants can answer 19 slang words, This means that context in this case the pictures help the participants to answer the questionnaire.

5.2 Suggestion

This study is not without weaknesses. One of the drawbacks is that the writer did not get deeper data by interviewing the participants. Therefore, the writer suggests further researchers to have interview to see whether the pictures help them to understand the words. A research can also be done by interviewing the players whether they need to understand the slang words in order to play and win the game.
