5. Script Wawancara

1. Bagaimana tanggapan tentang aplikasi ini?

Jawaban :

Aplikasi buu induk ini sangat baik untuk sekolah kita dan sangat dibutuhkan oleh sekolah-sekolah pangudi luhur.

2. Apakah aplikasi ini dapat mempermudah proses pengelolaan buku induk siswa?

Jawaban :

Iya sangat, dan ini adalah aplikasi yang luar biasa yang bisa digunakan untuk menampung data seluruh siswa disini yang sewaktu-waktu dapat dipakai untuk berbagai keperluan terutama administari-administrasi surat-menyurat dan sebagainya ini sangat diperlukan.

3. Apakah pengarsipan nilai menjadi lebih mudah dengan aplikasi ini?

Jawaban :

Iya, dengan adanya import data dari aplikasi nilai yang ada disekolah berupa excel, lalu bisa diimport dengan hanya hitungan detik, saya kira sangat-sangat mudah, sangat-sangat menguntungkan kami.

4. Apakah fitur form yang tersedia dapat mempermudah dalam pembuatan surat untuk kegiatan-kegiatan tertentu?

Jawaban :

Iya sangat, itukan karena fitur-fitur tadi dibuat seperti yang kami kehendaki seperti yang ada di aplikasi yang sudah ada disini, sehingga tidak asing bagi kami, jadi untuk menggunakannya juga sangat mudah, artinya sudah sesuai dengan yang kita harapkan, seperti surat menyurat tadi tinggal buka tinggal ambil, tinggal print saja, jadi sangat mempermudah kami.

5. Diantara ketiga fitur tersebut, fitur apa yang membuat anda ingin mengadopsi aplikasi ini?

Jawab :

Dari ketiga fitur tersebut yang membuat ingin mengadopsi aplikasi ini adalah rapor, karena rapor ini bagi kami sangat kompleks, nilainya begitu banyak, apalagi e-rapor yang sd itu sekarang ada deskripsi yang panjang-panjang, sehingga kami sangat tebantu kalau ada buku induk yang menyimpan data yang begitu panjang tadi. Ini merupakan cita-cita kami untuk bisa memiliki buku induk yang bisa menyimpan rapor kurikulum 2013 yang isinya berupa deskripsi yang sangat panjang. Sementara saya liah di sekolah-sekolah lain belum ada buku induk induk yang bisa menyimpan nilai rapor ini.

6. Apa kendala yang anda rasakan saat menggunakan aplikasi ini?

Jawaban :

Kesulitan kami yang pertama adalah jika ada perubahan-perubahan fitur, atau mungkin bentuk-bentuk halaman ini, dan kendala ini kan sudah ada. Nah sandainya ada perubahan ini kami akan kesulitan untuk mengubah, atau mungkin ingin menambah fitur-fitur baru kami mungkin akan kesulitan disana, meskipun kami bisa minta tolong pembuat aplikasi, tapi kedepannya kami sebetulnya punya keinginan bisa menambah fitur sendiri, bisa mengubah atau memperbaiki.

7. Bagian mana yang paling sulit anda gunakan?

Jawaban :

Karena saya belum begitu mendalami tentang aplikasi ini, sampai saat ini saya belum menemukan kendala, atau malah mungkin belum tau kendala apa yang akan saya hadapi, jadi saya belum menemukan kendala.

8. Apa saran anda agar aplikasi ini menjadi lebih baik, sehingga cocok untuk diimplementasikan disekolah?

Jawaban :

Kalau bagi saya aplikasi ini bisa digunakan oleh banyak orang dalam arti untuk disekolah kami nanti mungkin ada kepala sekolah, ada TU. Tapi nanti kedepannya apakah ini bisa digandakan begitu, palagi kami punya TK, jadi bisa kami ubah untuk dipakai di TK. Seperti itu harapan kedepannya.
