BAB 1 PENDAHULUAN Latar Belakang Masalah Kehidupan mahasiswa merupakan salah satu fase pendidikan tingkat akhir yang harus dilalui oleh seseorang sebelum masuk ke dunia kerja. Mahasiswa menurut UU Republik Indonesia Nomor 12 Tahun 2012 (2020), merupakan peserta didik di jenjang perguruan tinggi baik universitas, sekolah tinggi, kedinasan dan lain-lain. Menurut Hulukati dan Djibran (2018), rentang usia mahasiswa berada di usia 18-25 Tahun, hal ini menempatkan mahasiswa ke dalam dua kategori pada tahap perkembangan, yaitu remaja akhir dan dewasa awal. Menurut Hurlock (1980) tugas perkembangan remaja antara lain mencapai hubungan yang lebih serius, mencapai peran sosial sebagai pria atau wanita, mencapai kemandirian emosional, memilih dan mempersiapkan karier, mengembangkan kemampuan intelektual, menginternalisasi sikap-sikap orang dewasa. Sementara tugas perkembangan dewasa awal menurut Danim (dalam Hulukati & Djibran, 2018), antara lain mengelola rumah tangga, mulai bekerja, menikah dan memelihara anak. Mulai memasuki tahap
