Subject: [EduLearn] Decision - SCOPUS indexed Journal of Education and Learning (EduLearn)

To: Dr Cecilia Titiek Murniati <c_murniati@unika.ac.id>

-- Paper ID# 20744

-- Number of minimum references is 25 primarily journal articles published in the last five years

Dear Prof./Dr./Mr./Mrs. Dr Cecilia Titiek Murniati,

It is my great pleasure to inform you that your paper entitled "The Challenges, Supports, and Strategies of Self-directed Learning Among College Students" has been conditionally ACCEPTED and will be published in the Journal of Education and Learning (EduLearn). This journal is ACCREDITED (recognised) by the Ministry of Education, Culture, Research, and Technology, Republic of Indonesia (Decree No: 5162/E4/AK.04/2021), INDEXED by the ERIC Institute of Education Sciences (IES) of the U.S. Department of Education, and has just been accepted for inclusion in Scopus (<https://suggestor.step.scopus.com/progressTracker/?trackingID=4F4DD39B4F318CE6>). Congratulations!

Your paper is in the final stage for publication, but revisions are required. Please try to arrange your paper; the audiences of this journal are not only Indonesian authors but also international audiences. The findings should benefit international audiences. Authors are encouraged to carefully consider the reviewers comments and suggestions for improvement of their manuscript. Authors should write "research grant or contract" in the acknowledgement section.

Pay attention also to the following instructions carefully!

1). PLEASE ADHERE STRICTLY THE GUIDE OF AUTHORS !!

<http://iaescore.com/gfa/edulearn.docx> and pay attention to the checklist for preparing your FINAL paper for publication:

<http://edulearn.intelektual.org/index.php/EduLearn/about/editorialPolicies#custom-5>

2). All articles must follow the IMRAD plus C structure: 1. INTRODUCTION - 2. The Advanced Theory/Proposed Method/Framework/... specifically designed/proposed (optional) - 3. METHOD - 4. RESULTS AND DISCUSSION – 5. CONCLUSION (all included and clearly printed). See <http://iaescore.com/gfa/edulearn.docx>

3). Add biographies of authors as our template (include links to all authors' profiles, do not delete any icons in the template). It is mandatory!! See <http://iaescore.com/gfa/edulearn.docx>
--> Provide links for all authors to the 4 icons (Scholar, Scopus, Publons and ORCID)

4). Prepare all tables as our template (NOT as figure)

5). Use different PATTERNS for presenting different results in your figures/graphics (instead of different colors). It is mandatory!! Re-check all your figures. See <http://iaescore.com/gfa/edulearn.docx>

6). Please ensure that all references have been cited in your text. Use a tool such as EndNote, Mendeley, or Zotero for reference management and formatting, and choose IEEE style. Each citation should be written in the order of appearance in the text in square brackets. For example, the first citation [1], the second citation [2], and the third and fourth citations [3], [4]. When citing multiple sources at once, the preferred method is to list each number separately, in its own brackets, using a comma or dash between numbers, as such: [1], [3], [5]. It is not necessary to mention an author's name, pages used, or date of publication in the in-text citation. Instead, refer to the source with a number in a square bracket, e.g. [9], that will then correspond to the full citation in your reference list.

Examples of in-text citations:

This theory was first put forward in 1970 [9].

Zadeh [10] has argued that ...

Several recent studies [7], [9], [11]-[15] have suggested that....

... end of the line for my research [16].

7). Please present all references as complete as possible and use IEEE style (include information of DOIs, volume, number, pages, etc). If it is available, DOI information is mandatory!! See <http://iaescore.com/gfa/edulearn.docx>

Please prepare your final paper by doing your best to avoid any delay for publication !!! Please do it seriously !!!

Submit final paper along with your similarity report and your payment

evidence to email: EduLearn@uad.ac.id cc: EduLearn@journal.uad.ac.id within 4 weeks. The similarity rate should be checked by using software such as iThenticate or Turnitin (that the result is below 25%). If the similarity index is more than 25%, your paper will be rescheduled for publication until the similarity is less than 25%.

We really appreciate your total commitment to supporting this journal.

Your cooperation is very appreciated

Best Regards,
Lina Handayani

Abstract: Prepare your abstract in a single paragraph and within 200 words. You need to summarize your contributions, ideas, findings or results and describe the implications of the findings (without abbreviations, footnotes, or references without mathematical equations, diagrams, or tabular materials). It is recommended that you present your abstract with the following elements:

- 1) State the primary goal of the paper;
- 2) extol the virtues (or contribution);
- 3) describe the method conceptually;
- 4) Describe the research design and procedures/processes used (is it simulation, experimental, or survey, for example);
- 5) Provide the main outcomes or results, as well as any conclusions that may be drawn;
- 6) If applicable, include any implications for future research or application/practice.

This journal ONLY publishes high-quality papers. A high-quality paper should include the following components: 1) a clear statement of the problem addressed in the paper; 2) the proposed solution(s); and 3) the obtained results It clearly describes previous work on the problem as well as what is new.

Make sure that your discussion section is suitable. In the "Results and Discussion" section, the most important findings are listed, along with any necessary analysis of the results.

The title summarizes the main idea or ideas of your study (the title is the "summary" and "essence" of your paper). The title should be "encompassing" as well as "descriptive". A good title contains the fewest possible words needed to adequately describe the content and/or purpose of your research paper. Use abbreviations or acronyms rarely unless they are commonly known.

...: Camera ready paper ...

Your final camera ready paper should reflect a careful consideration of the following criteria:

1. Analysis: your revised paper should demonstrate a clear understanding of the key issues related to your topic of choice. The paper should display analysis and not a mere summary of the topic under consideration. It should also include evidence to back up arguments where necessary.
2. Connections: your paper should demonstrate a connection between the references you mention to the central topic and to each other where necessary throughout the paper.
3. Mechanics: this includes attention to punctuation, grammatical soundness, and your submissions' being checked for spelling errors.
4. Formatting: follow the new author's guide (<http://iaescore.com/gfa/edulearn.docx>).

To support the cost of wide open access dissemination of research results, to manage the various costs associated with handling and editing of the submitted manuscripts, and the journal management and publication in general, the authors or the author's institution is requested to pay a publication and layout fee.
