Dr. Heny Hartono, SS, M.Pd
Semarang, 11 September 2021

WHY IS IT IMPORTANT TO DO LESSON PLANNING?

- ³ Lesson planning can help the teacher to be well prepared and be aware of what he/she intends on teaching the students.
- ¹ A plan can help the teacher think about content, materials, sequencing, timing and activities.
- A plan provides security in some ¹ unpredictable atmosphere of a classroom.
- A plan is a log of what has been taught.
- A plan can help a substitute to smoothly take over a class when the teacher can not teach.

WHAT IS A LESSON PLAN?

- Lesson planning is the activity which the teacher performs **before** the actual lesson takes place.
- A lesson plan is a detailed description of the instructional strategies and learning activities to be performed during the teaching/learning process.
- ⁴ A lesson plan is a step-by-step guide on what students need to learn and how it will be done effectively during the class time.

- The learning objectives should be **specific, measurable, related with the intended outcomes**, concern with **students** not teachers.

Learning Assessment

- Assessment measures whether students learn the lesson well and **the lesson objectives are achieved**.
- Most of the informal assessment in the classroom can be grouped as formative assessment in which teachers give feedback to improve the learners' ability.
- The **formative assessment** is mainly focused on the ongoing development of learners' ability.
- **Summative assessment** is the one prepared by teachers to measure students' achievement at the end of the course.
