ARCHITECTURE FINAL PROJECT
The 62nd Period, First Semester of 2012/2013 Academic Year
SOEGIJAPRANATA CATHOLIC UNIVERSITY

Project Title : Frozen Frog Factory
Design Accentuation : High Tech Architecture
Core Issue : Energy Efficiency
Student : Fransisca Santoso, 08.11.0005
Supervisor : Prof.Dr-Ing.L.M.F.Purwanto
Examiners : Ir. V.G. Sri Rejeki, M.T
 Ir. Yulita Titik S., M.T
 Ir. Robert Rianto W, MT

Foreword

This paper is an architectural theory and programming about building which provide the new concept of Frozen Frog Factory. The idea comes from the writer's mind to create something new in Semarang City that there's no building like this in Semarang. The concept of 5C Daily along with High Tech Concept create a factory that provide new develop factory with aesthetic which other international factory had. Also to give different feelings to the people of Semarang.

The production and the recreation function which is rarely seen in Indonesia really create an idea in making an idea to develop those idea into Frog Factory which is actually not so well known and maybe make some questions to the reader himself.

Hope, this paper can give a lot of information and knowledge about the Frozen Frog Factory itself, it also can be an additional knowledge to the architecture student and other people.

October 2012,

AUTHOR

CONTENTS

APPROVAL SHEET.....
FOREWORDS.....
CONTENTS.....
LIST OF FIGURES.....
LIST OF TABLES.....
CHAPTER 1 Introduction
1.1 Frozen Frog Factory's Backgrounds.....1
1.1.1 Ideas.....1
1.1.2 Reason and Motivation of Frozen Frog Factory Selection.....4
1.2 Project Goal and Objectives of Making Frozen Frog Factory.....6
1.2.1 Benefits from Frozen Frog Factory's Project.....6
1.3 Scope of Project.....7
1.4 Methodology.....8
1.4.1 Data Collection Method.....8
1.4.2 Data Arrangement and Analysis Method.....8
1.4.3 Programming Method.....9
1.4.4 Design Method.....11
1.5. Writing System.....13

CHAPTER 2 Project Reviews

2.1 General Approach of the Project.....	15
2.1.1 General Description.....	15
2.1.2 Background, Development, and Trend.....	20
2.2 Specific Review of the Project.....	23
2.2.1 Terminology of Frozen Frog Factory.....	23
2.2.2 Activity User.....	24
2.2.3 Specification and Design Requirement.....	26
2.2.4 City Determination.....	29
2.2.5 Observation Plan of Frozen Frog Factory.....	33
2.2.6 Design Problems.....	45
2.3 Conclusions.....	47

CHAPTER 3 Analysis of Architecture Program Approach

3.1 Analysis of Architectural Approaches.....	61
3.1.1 Analysis of Building User's Activities.....	61
3.1.2 Analysis of Facilities Study.....	80
3.1.3 Analysis of Special Space Study.....	83
3.1.4 Space Capacious.....	93
3.2 Analysis of Building System Approach.....	138
3.2.1 Analysis of Structure System and Enclosure.....	138

3.2.2 Analysis of Utility System.....	152
3.2.3 Analysis of Technology.....	161
3.3 Site Location and Analysis.....	172

CHAPTER 4 Architectural Program

4.1 The Concept of The Program.....	179
4.2 Design Goal, Design Determinant, and Design Requirement.....	181
4.3 Architectural Program.....	188
4.3.1 Program of Activities.....	188
4.3.2 Program for Structure System.....	206
4.3.3 Program of Utility.....	211
4.3.4 Program of Site Area.....	218
4.3.5 Program Soft Material.....	222

CHAPTER 5 Architectural Theory

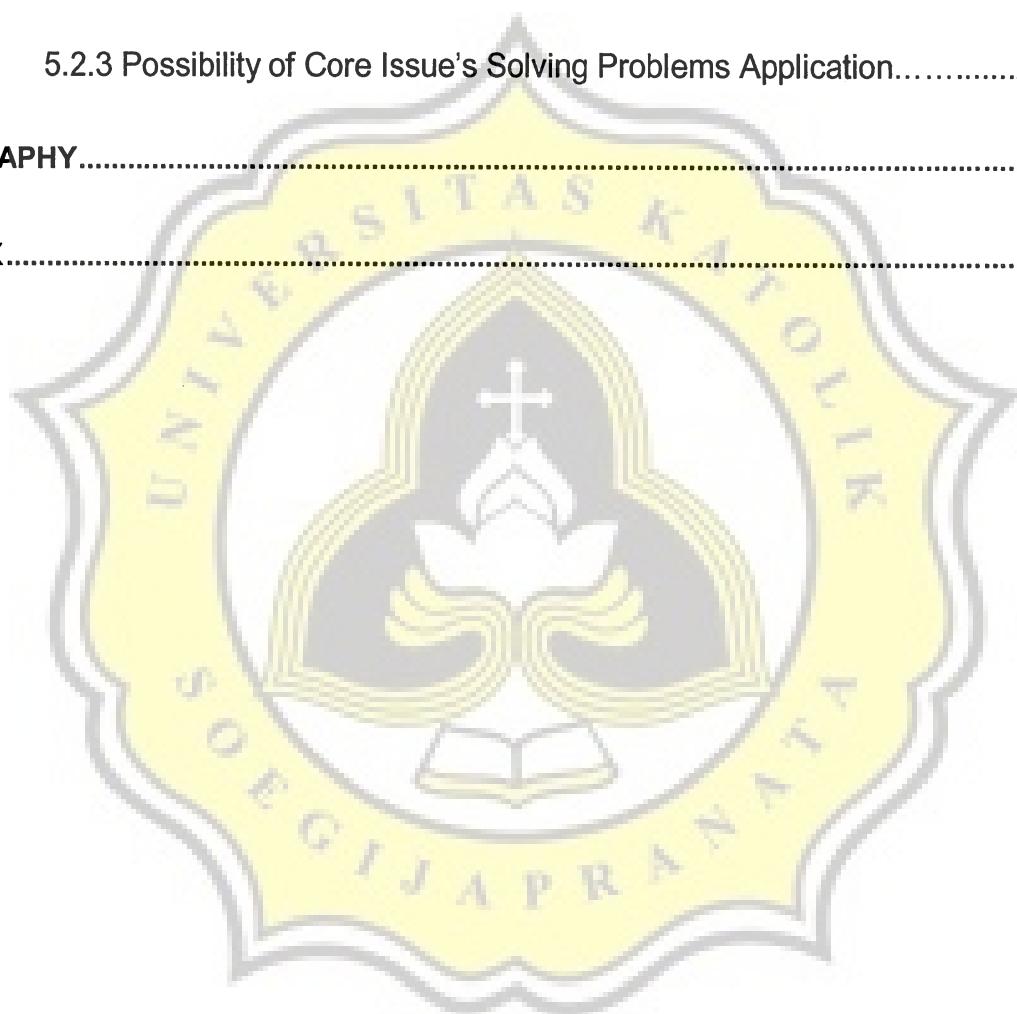

5.1. Design Accentuation.....	223
5.1.1. Interpretation and Theory Elaboration of Design Accentuation....	223
5.1.2. Precedent Study.....	228
5.1.3 Possibility of Design Accentuation Application.....	188

5.2 Core Issues (Energy Efficiency)

5.2.1. Interpretation and Theory Elaboration of Energy Efficiency.....	236
5.2.2 Precedent Study.....	243
5.2.3 Possibility of Core Issue's Solving Problems Application.....	245

BIBLIOGRAPHY.....

APPENDIX.....
