

DAFTAR PUSTAKA

- American Standard Test Method (1999): *ASTM C 33 – 93 - Standard specification for concrete aggregates*. Amerika Serikat. 5.
- American Standard Test Method (2003): *ASTM C31/C31M – 19 - Standard practice for making and curing test specimens in the field*. Farmington Hills. Amerika Serikat. 1-6.
- American Standard Test Method (2004): *ASTM C 150 – 92 - Standard specification for portland cement*. American Society for Testing and Material. Amerika Serikat. 2-4.
- American Standard Test Method (2005): *ASTM C39/C39M – 05 - Standard test method for compressive strength of cylindrical concrete specimens*. Amerika Serikat. 1-7.
- American Standard Test Method (2007): *ASTM C1585 - 04 - Standard test method for measurement of rate of absorption of water by hydraulic-cement concretes*. Amerika Serikat. 3-8.
- American Standard Test Method. (1978): *ASTM C33 – 93. Standard specification for concrete aggregates*. Amerika Serikat. 1-7.
- American Standard Test Method. (1991): *ASTM C 187 – 86 – Normal consistency of hydraulic cement*. Amerika Serikat. 1-2.
- American Standard Test Method. (1992): *ASTM C 191 – 92 – Standard test methods for time of setting of hydraulic cement*. Amerika Serikat. 3-4.
- American Standard Test Method. (1995): *ASTM C 128 – 93 – Standard test method for relative density*. Amerika Serikat. 2.
- American Standard Test Method. (1995): *ASTM C 188 – 89 – Normal consistency of hydraulic cement*. Amerika Serikat. 1-2.
- American Standard Test Method. (1995): *ASTM C117 - 95 – Standard test method for materials finer than 75µm*. Amerika Serikat. 2.
- American Standard Test Method. (1995): *ASTM D4791 - 95 – Standard test method for flat particles, elongated particles, or flat and elongated particles in coarse aggregate*. Amerika Serikat. 1-3.
- American Standard Test Method. (2001): *ASTM C127 - 88 – Standard test method for specific gravity and absorption of coarse aggregate*. Amerika Serikat. 1-5.
- American Standard Test Method. (2003): *ASTM C29/29M - 97 – Standard test method for relative density (specific gravity) and absorption of fine aggregate*. Amerika Serikat. 2.
- American Standard Test Method. (2005): *ASTM C39/C39M – 14 - Standard test method for compressive strength of cylindrical concrete specimens*. Amerika Serikat. 1-7.
- American Standard Test Method. (2006): *ASTM C33/C33-13 – Standard specification for concrete aggregates*. Amerika Serikat. 1-11.
- American Standard Test Method. (2010): *ASTM C293 - 02 – Standard test method for flexural strength of concrete relating to concrete (using simple beam with center-point loading)*. Amerika Serikat. 1-3.

- American Standard Test Method. (2012): *ASTM C125 - 06 – Standard terminology relating to concrete and concrete aggregate*. Amerika Serikat. 1-3.
- American Standard Test Method. (2012): *ASTM C617 – Standard practice for capping cylindrical concrete specimens*. Pennsylvania: Agencies of the U.S. Department of Defense, 3-5.
- American Standard Test Method. (2013): *ASTM C566 - 89 – Standard test method for total evaporable moisture content of aggregate*. Amerika Serikat, 1-3.
- Badan Standarisasi Nasional & American Society for Testing and Materials. (2013): *Standar C123. Metode uji partikel ringan dan agregat*, 7-16
- Badan Standarisasi Nasional. (2000): *SNI 03-2834-2000. Tata cara pembuatan rencana campuran beton normal*. Jakarta : BSN, 3-36
- Badan Standarisasi Nasional. (2000): *SNI T15-1991-03. Struktur beton bertulang pelat lantai*. Jakarta: Departemen Pekerjaan Umum, 12-15
- Badan Standarisasi Nasional. (2002): *SNI 03-2847-2002. Tata cara perhitungan struktur beton untuk bangunan gedung*. Jakarta: BSN, 13-17
- Badan Standarisasi Nasional. (2002): *SNI 03-6805-2002. Metode pengujian untuk mengukur nilai kuat tekan beton pada umur awal dan memproyeksikan kekuatan pada umur berikutnya*. Jakarta: BSN, 2-9.
- Badan Standarisasi Nasional. (2008): *SNI 1972:2008. Cari uji slump beton*, Jakarta: BSN, 1-5.
- Badan Standarisasi Nasional. (2011): *SNI 03-1974-2011. Cara uji kuat tekan beton dengan benda uji silinder*. Jakarta: BSN, 9-19.
- Badan Standarisasi Nasional. (2011): *SNI 1974:2011. Cari uji kuat tekan beton dengan benda uji silinder*. Jakarta: BSN, 1-14.
- Badan Standarisasi Nasional. (2012): *SNI 7656:2012. Tata cara pemilihan campuran untuk beton normal, beton berat, dan beton massa*. Jakarta: BSN, 3-43.
- Badan Standarisasi Nasional. (2019): *SNI 03-2847-2019. Persyaratan beton struktural untuk bangunan gedung dan penjelasan*. Jakarta: BSN, 25-34.
