Abstrak

Home care merupakan layanan kesehatan lanjutan yang tujuannya memberikan layanan kesehatan kepada pasien di rumah tempat tinggal mereka. Aturan yang spesifik untuk home care belum ada tapi menurut UU 17 tahun 2023 tentang Kesehatan, layanan kesehatan lanjutan bisa diberikan di fasilitas kesehatan tingkat lanjut dan diberikan oleh tenaga medis dan tenaga kesehatan yang mempunyai kompetensi dan kewenangan untuk itu. Rumusan masalah penelitian ini adalah : 1) Bagaimana pengaturan peran rumah sakit dalam memberikan layanan home care? 2) Bagaimana pelaksanaan layanan home care yang diberikan oleh RS Tk II Pelamonia? 3) Bagaimana kendala/hambatan dalam pemberian layanan home care oleh RS Tk II Pelamonia? Metode penelitian yang digunakan adalah yuridis sosiologis dengan pendekatan kualitatif. Data diperoleh melalui studi kepustakaan dan wawancara. Hasil penelitian menunjukkan bahwa 1) Karena regulasi yang khusus terkait home care tidak ada maka layanan home care di RS Tk II Pelamonia berdasarkan Surat Perintah dari Kepala Rumah Sakit, 2) Pelaksanaan layanan home care di RS Tk II Pelamonia sudah diatur oleh Kepala Rumah Sakit, Ketua Komite Medik, dan dilaksanakan oleh Ketua Tim Home care beserta tim home care, 3) Kendala yang dihadapi dalam layanan home care berupa kendala teknis berupa keterbatasan sumber daya pembagian tugas yang tidak optimal, keterbatasan fasilitas dan peralatan, masalah logistik dan aksesibilitas, kendala yuridis berupa peraturan hukum yang belum memadai, perlindungan hukum bagi tenaga kesehatan, standar prosedur operasional dan kendala sosial berupa dukungan sosial keluarga, kesadaran kesehatan, stigma sosial

Kata Kunci : Home care, rumah sakit

Abstract

Home care is a follow-up health service aimed at providing healthcare to patients in their homes. There are no specific regulations for home care yet, but according to Law No. 17 of 2023 concerning Health, follow-up health services can be provided in advanced healthcare facilities and must be delivered by medical and healthcare personnel who have the competence and authority to do so. The research problems addressed in this study are: 1) How is the role of hospitals in providing home care services regulated? 2) How is the implementation of home care services provided by RS Tk II Pelamonia? 3) What are the obstacles/barriers in providing home care services by RS Tk II Pelamonia? The research method used is sociological juridical with a qualitative approach. Data were obtained through literature studies and interviews. The research results indicate that 1) Due to the lack of specific regulations related to home care, the home care services at RS Tk II Pelamonia are based on an Order from the Hospital Director, 2) The implementation of home care services at RS Tk II Pelamonia is managed by the Hospital Director, the Head of the Medical Committee, and carried out by the Head of the Home Care Team along with the home care team, 3) The challenges faced in home care services include technical constraints such as limited resources, suboptimal task distribution, limited facilities and equipment, logistical and accessibility issues; juridical constraints such as inadequate legal regulations, legal protection for healthcare workers, and standard operational procedures; and social constraints such as family social support, health awareness, and social stigma.

Keywords: Home care, hospital

The logo of Soegijapranata University is a shield-shaped emblem. It features a central circular motif with a stylized sun or flower design. Below this, there is an open book. The name 'SOEGIJAPRANATA' is written in a semi-circular arc across the bottom of the shield. The entire logo is rendered in a light yellow/gold color with a subtle shadow effect.
