ACKNOWLEDGEMENT

First of all, I would like to thank Jesus Christ for His blessing and guidance so that I can finish my thesis. I know that I would never make this achievement without His blessing.

Further, I would like to express my gratitude to my beloved father (Nurdin Thomas), my beloved mom (Imelia Irwanto), and my beloved sisters (Eva, Alice, Hallena). I will never be who I am now without them in my life.

My deepest gratitude also goes to my major sponsor Antonius Suratno, Ph.D who has sincerely and patiently helped and guided me in this journey. He has given me a lot of useful advices for my thesis improvement. He has helped me a lot to improve my grammar. My sincere gratitude also goes to Cecilia Titiek Murniati, Ph.D as the co-sponsor of this thesis. She has helped me correcting and improving my thesis. She has helped me in my acknowledgement in using coding. Both my supervisors encouraged me to finish my thesis. It is really a privilege for me to work under their supervision.

Then, I would also like to express my gratitude and appreciation to all the lecturers in Faculty of Language and Arts. They have given me a lot of valuable knowledge. Especially for Ibu Ninik and Ibu Ekawati, I would like to thank you for always willing to answer and respond to my questions, concerns and difficulties.

Lastly, I would like to express my warmest gratitude to my best friend Lonia Anggraini. Thank you for your support and help during difficult times. I

would also to deliver my gratitude to all my friends in the faculty. You guys are making my academic years becoming fun and not boring, glad to know you all in this dearest faculty.

ABSTRACT

This thesis, entitled “An Analysis of Speech Acts used in RF online game”, discusses the kinds of speech acts in the chat box in RF online game by using the theory of Yule (1996). The problems that have been analyzed are (1) the speech acts used in *RF online game* (2) the context each type of speech acts used in *RF online game* (3) the most dominant of speech acts which appear in *RF online game*. Analysis result obtained from 1048 utterances shows that the speech acts used are declarations (17.75%), representatives (22.9%), expressives (4.2%), directives (54.3%) and commissives (0.85%). Thus, the most dominant speech acts in RF online game is Declarations because the game is about a war between three races to achieve limited resources in Novus Galaxy.

ABSTRAK

Tesis ini berjudul “*An Analysis of Speech Acts Used in RF Online Game*” membahas jenis-jenis dari speech act yang ada di kotak percakapan game RF dengan menggunakan teori Yule (1996). Permasalahan yang telah dianalisa adalah (1) *the speech acts used in RF online game*, (2) *the context each type of speech acts used in RF online game* (3) *the most dominant of speech acts which appear in RF online game*. Hasil analisa diperoleh dari 1048 ucapan menjelaskan jika speech acts yang digunakan adalah *declarations* (17.75%), *representatives* (22.9%), *expressives* (4.2%), *directives* (54.3%) and *commissives* (0.85%). Jadi, speech act yang lebih dominan di dalam game RF adalah *Declarations* karena game ini menceritakan sebuah kisah mengenai perang antara tiga bangsa memperebutkan sumberdaya yang terbatas di planet Novus.
