In Christ Alone

In Christ alone my hope is found
He is my light, my strength, my song
This Cornerstone, this solid ground
Firm through the fiercest drought and storm
What heights of love, what depths of peace
When fears are stilled, when strivings cease
My Comforter, my All in All
Here in the love of Christ I stand

In Christ alone, who took on flesh
Fullness of God in helpless babe
This gift of love and righteousness
Scorned by the ones He came to save
'til on that cross as Jesus died
The wrath of God was satisfied
For every sin on Him laid
Here in the death of Christ I live

There in the ground His body lay
Light of the world by darkness slain
Then bursting forth in glorious Day
Up from the grave He rose again
And as He stands in victory
Sin's curse has lost its grip on me
For I am His and He is mine
Bought with the precious blood of Christ

No guilt of life, no fear of death
This is the power of Christ in me
From life's first cry to final breath
Jesus commands my destiny
No power of hell, no scheme of man
Can ever pluck me from His hand
'til He returns or calls me home
Here in the power of Christ I'll stand

ACKNOWLEDGEMENTS

In this part, I would like to express thanks to all people who have helped me to finish my thesis. First of all, I would like to give my thank to my Lord Jesus who guides me, teaches me, and strengthens me all the time especially in doing this thesis. I realize that I cannot finish it without Him. I can finish this thesis just because of His amazing favor and grace unto me. God not only gives me a wonderful experience and shows His miracles unto me in finishing my study but also teaches me so many valuable lessons in facing this life. Actually, I do not know what I have to say to express my thank. I only can say, “Thanks a million Jesus for all that You have done in my life.” It is so precious for me. Once again, I want to say “Thank you, Jesus.”

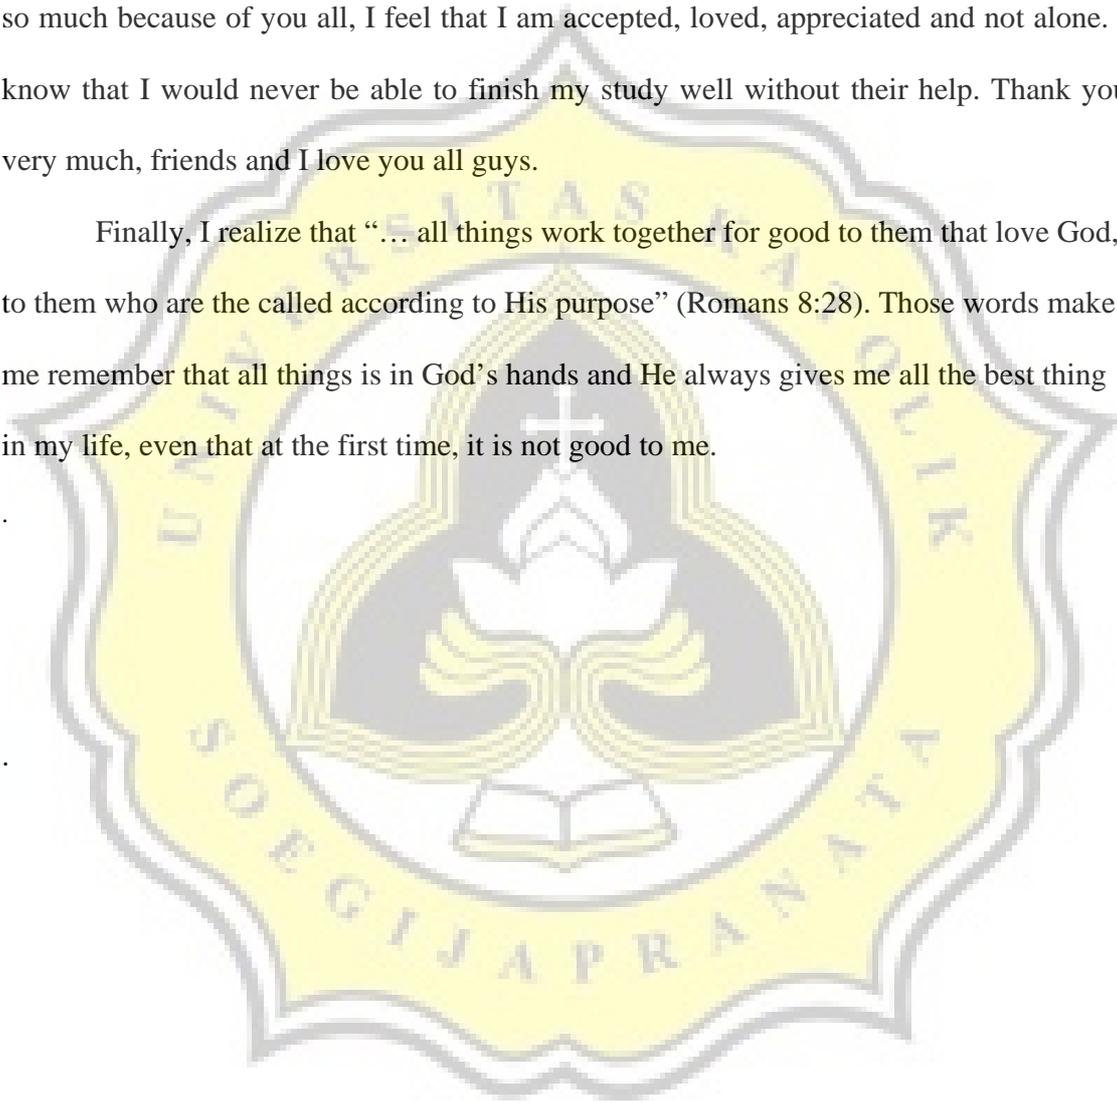

In addition, I would like to express my deepest gratitude to my mother and father. Mom and Dad thank for the prayers and the support so that I can finish this thesis. Thank you very much for your love and support spiritually and financially. I express regret for my fault and I hope that both of you can be proud of me.

I was also grateful to my major sponsor, Emilia Ninik Ayardawati SP.M.Hum, for her precious time, support, patience and suggestion so that I can pass all the process in finishing my thesis. I moreover indebted to my Co-Sponsor, Angelika Riyandari, S.S, M.A, for her concern, attention, and thoughts in finishing my thesis. Thank you very much for the direction in order that I could come to an end of my thesis.

I also want to give appreciation to my academic advisor, Dra. R.M. Sri Suryaningsih, M.A, for her patience and support in the period of my study in the Faculty of Letters Soegijapranata Catholic University. I also want to say thank you very much for all other lecturers in Faculty of Letters. I got a lot of happiness, sadness, experiences, knowledge and also unforgettable moments during my study.

All of you have given me smile, love, care, support, and also thoughts when I was doing my thesis. Thank you so much because of you all, I feel that I am accepted, loved, appreciated and not alone. I know that I would never be able to finish my study well without their help. Thank you very much, friends and I love you all guys.

Finally, I realize that "... all things work together for good to them that love God, to them who are the called according to His purpose" (Romans 8:28). Those words make me remember that all things is in God's hands and He always gives me all the best thing in my life, even that at the first time, it is not good to me.

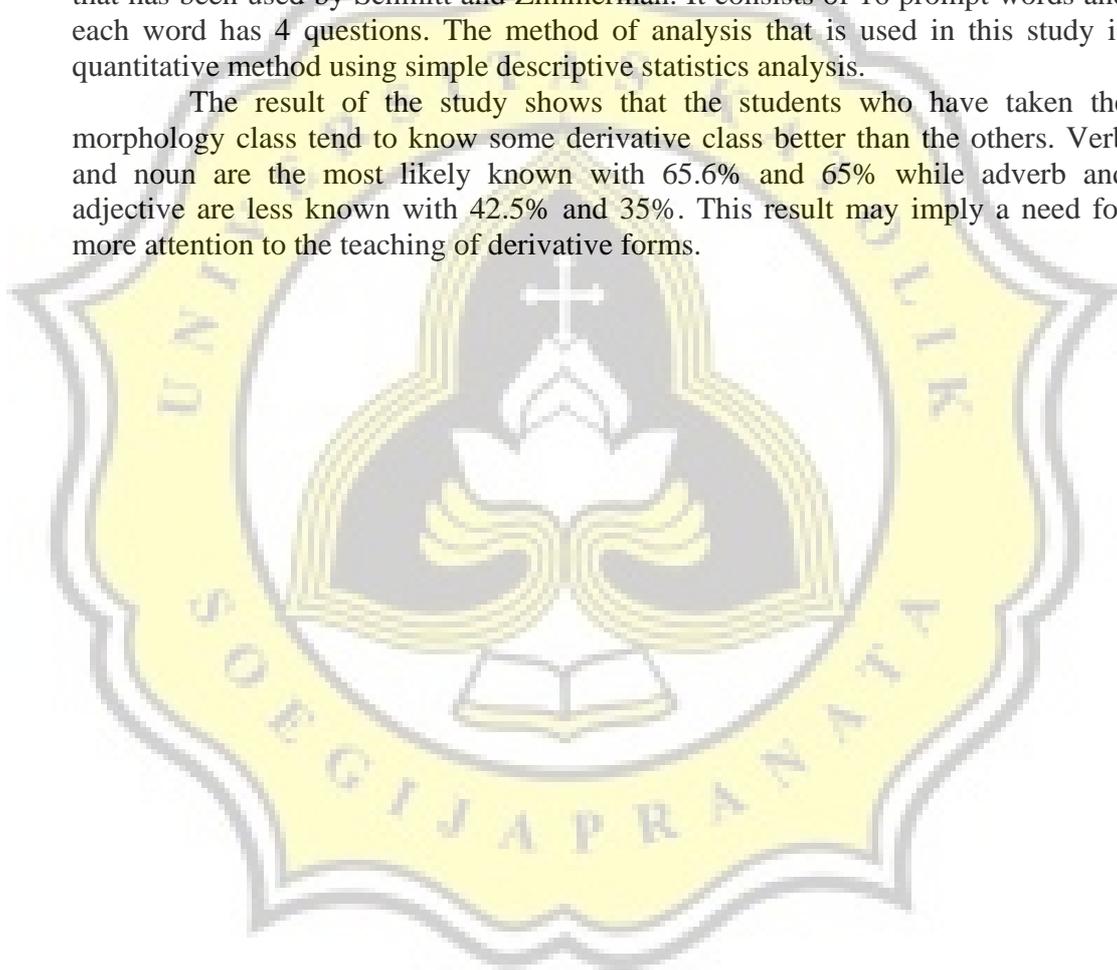

ABSTRACT

Derivative form is important because it can be categorized as part of vocabulary. Besides, derivative form is needed to arrange the words in a sentence. It has to be done correctly so that there is no misunderstanding in communicating with each other. That is why people have to acquire it.

Due to the importance of derivative form, the writer decided to conduct a research to find out the ability of the students in understanding derivative word forms. The result of the study will show how far the students know about derivative word forms and its application in a sentence.

The data were taken from 2002 and 2003 students of faculty of Letters who have taken morphology class in Soegijapranata Catholic University. They were 24 respondents. To collect the data from the respondents, the writer used the test that has been used by Schmitt and Zimmerman. It consists of 16 prompt words and each word has 4 questions. The method of analysis that is used in this study is quantitative method using simple descriptive statistics analysis.

The result of the study shows that the students who have taken the morphology class tend to know some derivative class better than the others. Verb and noun are the most likely known with 65.6% and 65% while adverb and adjective are less known with 42.5% and 35%. This result may imply a need for more attention to the teaching of derivative forms.
