FOREWORD

I dedicated this graduation to my whole family that had been support me. Thanks to God that always give me inspiration and solution if I had trouble.

I would like to say thank you to:

1. God for His guide, so I can finish my Bachelor study.
2. My family that always supports me and fulfill my need.
3. Mr. Aji as supervisor that give me ideas and advices to finish my project perfectly.
4. All Lecturers Faculty of Computer Science Mr.Yanto, Mr.Marlon, Mr.Aji, Mrs.Rosita, Mrs.Shinta, etc.
5. Mr Rezky for giving me an advice for networking program.
7. At last big thanks to all of my project friends. Also thanks to my friends who always support me.

Thank you to anybody who know me and always pray and support for me. I apologize if I had mistake and do something wrong and caused you mad and angry.

ABSTRACT

BiOS is a web-based open source billing application, which is made specially for Linux based computer. This application use the Apache or Lighttpd for a webserver, Php as an application interface, and MySql as the database. BiOS use a Client-Server concept. Client can monitor the duration of usage and it costs via a webbrowser. And the operator can monitor the cost to be paid by the client, start, stop and reset the client’s billing, making daily and monthly reports, includes printing bills for a customers. Later this application can be developed into a volume based billing.

Keyword : BiOS, Billing, Client-Server.
