PROJECT REPORT

Syntax Analysis Using Recursive Descent Parser Algorithm

by

Ryan Marino Wijaya – 12.02.0005

This project report has been approved and ratified by the Faculty of
Computer Science on January, 26th 2016

With approval,

Supervisor,

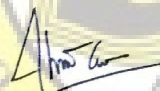

Rosita Herawati, ST, MT
NPP : 058.1.2004.263

Examiners,

1.)

Suyanto EA, Ir, M.Sc
NPP : 058.1.1992.116

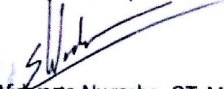

2.)

Shinta Esri Wahyuningrum, S.Si., M.Cs
NPP : 058.1.2007.272

3.)

Hironimus Leang, S.Kom, M.Kom
NPP : 058.1.2007.273

Dean of Faculty of Computer Science,

Erdhi Widhyarto Nugroho, ST, MT
NPP : 058.1.2002.254

STATEMENT OF ORIGINALITY

I, the undersigned:

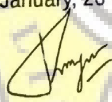

Name : Ryan Martino Wijaya

ID : 12.02.0005

Certify that this project was made by myself and not copy or plagiarize from other people, except that in writing expressed to the other article. If it is proven that this project was plagiarizes or copy the other, I am ready to accept a sanction.

ABSTRACT

The making of this project is needed because the current number of programmers is increasing. While in the program making frequent human error, such as writing errors, lack of punctuation and formatting errors writing program. Because if there is an error then the program can not be executed.

This program can help solve these problems with the help of Recursive Descent parser algorithm. Recursive descent parse algorithms help to read the source code from top to bottom and left to right. This program is also used arraylist to store the structure of c language.

The results will be displayed in the form of errors. The results shown by the lines of how and what is wrong. So it can be easier for programmers to correct the wrong.

Keywords : Recursive Descent Parser Algorithm, the structure of c language, Syntax analysis

PREFACE

This project is divided into six chapters. The first chapter consists of background, scope and objective of this final project. The second chapter tells about the data structure and algorithm. Data structure that is used is a linked list, array and the array list. And the algorithm used is recursive descent parser algorithm.

The third chapter is tells about planning of this project, and there can be found the planning schedule of this project. The fourth chapter is tells about this project analysis and design. At this chapter can be found the use case diagram and class diagram.

The fifth chapter is tells about the implementation and testing from analysis and design. The figure of User Interface and the results can be found in this chapter. The sixth chapter is can be found conclusion and further research.

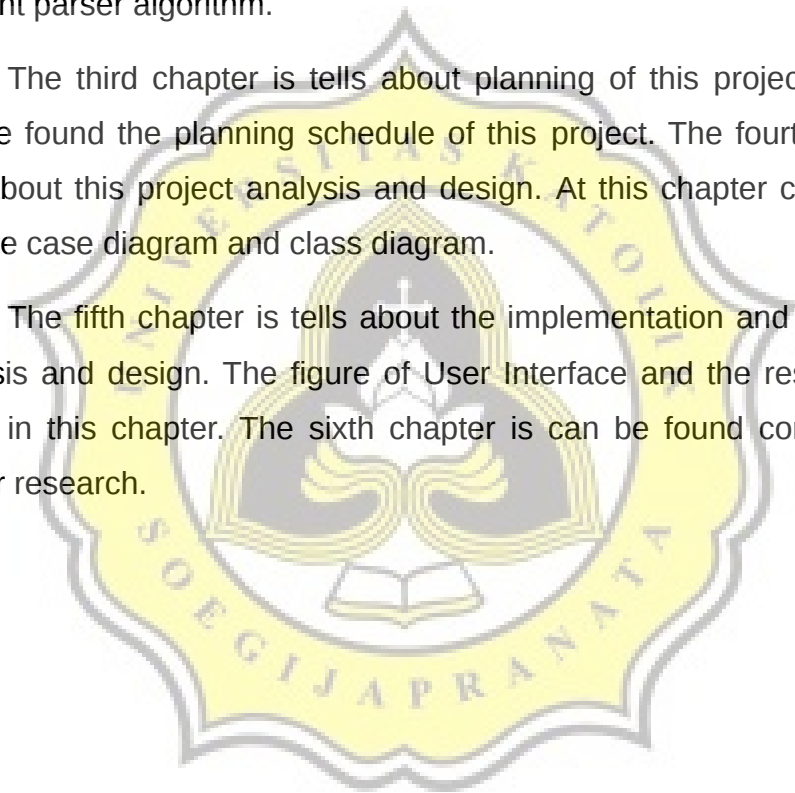

TABLE OF CONTENTS

| | |
|---|-----|
| APPROVAL AND RATIFICATION PAGE..... | ii |
| STATEMENT OF ORIGINALITY..... | iii |
| ABSTRACT..... | iv |
| PREFACE..... | v |
| CHAPTER I INTRODUCTION..... | 1 |
| 1.1 Background..... | 1 |
| 1.2 Scope..... | 2 |
| 1.3 Objective..... | 2 |
| CHAPTER II LITERATURE STUDY..... | 3 |
| CHAPTER III RESEARCH METHODOLOGY..... | 4 |
| CHAPTER IV ANALYSIS DESIGN..... | 5 |
| 4.1 Analysis..... | 5 |
| 4.2 Design..... | 6 |
| 4.2.1 Use Case Diagram..... | 6 |
| 4.2.2 Class Diagram..... | 7 |
| CHAPTER V IMPLEMENTATION & TESTING..... | 8 |
| 5.1 Implementation..... | 8 |
| 5.1.1 Implementation Of Program..... | 8 |
| 5.1.2 Data Strucuture..... | 8 |
| 5.1.3 Recursive Descent Parser Algorithm..... | 9 |
| CHAPTER VI CONCLUTION..... | 13 |
| 6.1 Conclusion..... | 13 |
| 6.2 Futher Research..... | 13 |
