SOCIAL RESTRICTION REGULATION

- Regulation is National, Provincial: 34, City district and Regency 514 (416 Regency & 98 City);
- Each Province, city and regency has its own restriction policies;
- There are also sectoral policies 1. from the ministry, department, institution etc.
- Do Indonesia people aware of the dangerous situation and the social restriction? Do they have enough literacy for Social Restriction Regulation?

TRADITIONS, INFECTIOUS DISEASE OUTBREAKS & HEALTH QUARANTINE REGULATION

**Presented in: International On-line Seminar
Conducted by: Health Law Master Program, Faculty of Law and Communication
Soegijapranata Catholic University
Semarang, 5 June 2021**

By: Dr. Marcella Elwina Simandjuntak, SH., CN., M.Hum

FULL TITLE

- Traditions, Infectious Disease Outbreaks And Health Quarantine Regulation: Examining Society's Legal Awareness On Social Restriction During The Outbreaks Of Covid-19 Pandemic
- **Keywords: local tradition, covid-19 pandemic, regulation, health quarantine, social restrictions**
- Tradisi lokal, wabah penyakit menular dan karantina kesehatan: menyoal kesadaran hukum masyarakat tentang pembatasan sosial pada masa pandemi Covid-19
- **Kata kunci: tradisi, pandemi covid-19, regulasi, karantina kesehatan, pembatasan sosial**

DEVELOPMENT OF COVID-19 PANDEMIC

General Policies on Covid-19 Pandemic in Indonesia

| MONTH/YEAR | FASE | AKTIVITAS |
|--------------------|---|---|
| December 2019 | Covid-19 was reported from Wuhan Prov. Hubei, China to WHO | Karantina dan Lock-down |
| January 2020 | WHO declared 'an international public health emergency status'. | WHO declare 'Emergency Status' (IHR Emergency Committee on Novel Corona virus), collecting data base (tracking, recording), having international experts meetings, support international outbreak response, making information standard, global communication etc. |
| March 2020 | Indonesia Declared 'Health Emergency Status' | <ul style="list-style-type: none"> • Government decided 'a large-scale social restrictions' or PSBB as regulated on UU No.6/2018 tentang Health Quarantine, Special hospitals for Corona etc. • Lockdown, closing schools, office and WfH, closing bus and train station, airports etc. |
| June 2020 | Declaration of New Normal Era with some special restriction | Opening bus and train station, airports etc. |
| January 2021 - now | Beginning of Covid-19 Vaccination | Providing Covid-19 Vaccination for some priority groups (doctors, nurse, teachers, university lecturer, public servant etc.) |

BACKGORUND

- Indonesian society is a communalistic society;
- It has so many traditions including the tradition of 'mudik' during religious holidays to celebrate those holidays with the loves one in their hometown or village;
- Since the pandemic, this tradition has been banned and temporarily suspended by the government for the sake of preventing and breaking the chain of the spread of the corona virus (covid-19).

BACKGROUND

- In addition to religious traditions, since the last few years, new traditions of gathering or crowding to support political or religious figures have also emerged.
- One of the most phenomenal cases was the case of the 'crowd' of Petamburan and/or Megamendung which finally brought one of the religious/community leaders to court.

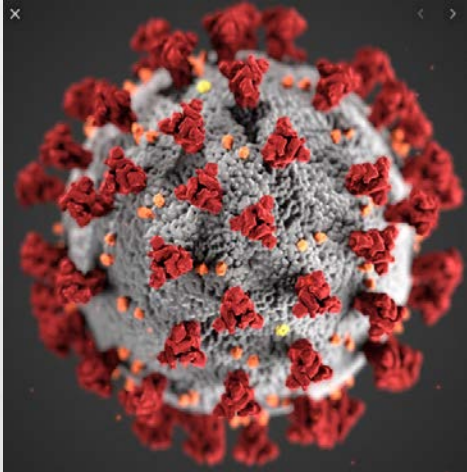

PROBLEM

- Given that there are so many violations of national regulations regarding health quarantine and infectious disease outbreaks as well as local regulations regarding for large-scale social restrictions, this paper tries to see the relationship between religious traditions (eid, christmas, etc.) with the increasing number of people infected by the Corona Virus and relate it also to society's legal awareness for this social restriction.

METHODOLOGY

- The paper use the statute/regulation approach and qualitative approach;
- The main data used is a secondary data especially regulations, policies, local policies etc.;
- Data is also gained by doing observation of the situation before, during and after the commemoration of religious holidays through the social media and online mass media;
- The analysis was carried out qualitatively;

SOCIAL RESTRICTION REGULATION

- Regulation is National, Provincial: 34, City district and Regency 514 (416 Regency & 98 City);
- Each Province, city and regency has its own restriction policies;
- There are also sectoral policies i. from the ministry, department, institution etc.
- Do IndonesiaN people aware of the dangerous situation and the social restriction regulation? Do they have enough literacy for Social Restriction Regulation?

LAWYERS BEAR IN MIND

➤ Meeting ID to be shared with advocates 15 minutes before hearing commences

➤ Advocates should mute their microphones until they are allowed to speak

➤ Advocates must maintain dress code while appearing

➤ Advocates should ensure proper lighting and set up their device at a quiet place

THEORETICAL FRAMEWORK: WHY PEOPLE OBEY THE LAW ?

Tom R. Tyler
1990

Do people obey the law because **they fear** that they will be punished?

Or because they think that the government, courts or police **are usually fair**?

Do most people care about **whether they win or lose**?

Or about having the legal system that **threat them with dignity**?

THEORETICAL FRAMEWORK: TOM. R TYLER (1990)

- If people view **compliance with the law as appropriate** because of their attitudes about how they should behave, they will **voluntarily assume the obligation** to follow legal rules. They will feel personally committed to obeying the law, **irrespective** of whether they risk **punishment** for breaking the law;
- **NORMATIVE COMMITMENT: Involve Personal Morality or Legitimacy ;**
 - Normative commitment through **personal morality** means obeying a law because one feels the **law is just**;
 - Normative commitment through **legitimacy** means obeying a law because one feels that **the authority** enforcing the law **has the right** to dictate behavior

AFFECTING FACTORS?

- Economic Condition, social class
- Duration of the quarantine;
- Education, Literacy etc.
- Perceptions of the benefits and risks of complying with the law and the regulation;
- Perception of health care and service;
- Family situation etc.

NEW NORMAL: CHALLENGE

- Could the situation return to normal, considering that the tradition of religious celebrations is difficult to stop?
- Society still need socialization, literacy, supervision, law enforcement.

THANK YOU

SEMARANG, JUNE 5th 2021
