Subject: Manuscript AJWEP 088/300320: Asking reviewing process

Dear Editorial Board
 Asian Journal of Water, Environment, and Pollution

In April 2020 we submitted a manuscript entitled "Blue Water Footprint and Grey Water Footprint Assessment of Block-Printed Batik-Making Process Colored by Indigo (*Indigofera* sp.), Tingi (*Ceriops tagal*), and Mahogany (*Swietenia* sp.)" written by Budi Widianarko, Widhi Handayani, and Alberta Rika Pratiwi. Attached to the manuscript are other supporting documents, i.e. transfer copyright statement, cover letter, tables and figures, plagiarism evaluation result by Turnitine, and the figures in JPEG format. The editors have received the manuscript for review.

By this email, we would like to ask about the reviewing process, because it has been about more than four months and we are looking forward to getting the result of the review.

Thank you very much.

Best regards,

Meet

Dear Sir,

Your above referred paper has been reviewed and the reviewers comments are given below -

This paper deals with the Blue Water Footprint and Grey Water Footprint Assessment of Block-Printed Batik-Making Process Colored by Indigo (*Indigofera* sp.), Tingi (*Cerriops tagal*), and Mahogany (*Swietenia* sp.)

1. Abstract: Authors should suggest some recycling treatment techniques.
2. Introduction: not sufficient. Elaborate this section and add some research gap.
3. Methodology: Looks fine. Add some analytical error for the laboratory
4. R&D: correlate blue and grey water relationship of BOD and COD.
5. Conclusion: Add some importance of this techniques.

Kindly revise on the lines suggested and submit your paper for publication.

Thanking you.
