Alur ide baik. Hanya konsistensi tujuan yang perlu mendapat perhatian. Sehingga judul bisa disesuaikan dan diarahkan ke kata kunci dari tujuan yang akan dicapai. Metode masih relatif teoritis, kurang operasional. .
Pembahasan tentang sistem perpajakan kurang terlihat keterkaitannya atau pentingnya bagi penelitian atau tujuan yang ingin dicapai dari penelitian ini.

Urgensi Pemberian Insentif Pajak Bagi Pekerja Difabel

Apelina Teresia, Shandy Jannifer Matitaputty, Agung Sugiarto

Abstract

Government policies and community support for providing tax incentives for workers with disabilities in Indonesia remain uncertain. This study aims to analyze public perceptions regarding the necessity of implementing tax incentives for workers with disabilities to support the disabled community in Indonesia. Data were collected through surveys and interviews, and the Analytical Hierarchy Process (AHP) was employed to determine the order of importance of various aspects related to implementing special tax measures for people with disabilities based on public perceptions. The analysis reveals that the community perceives individuals with disabilities as having lower performance and requiring support from external sources, thus warranting a comprehensive taxation scheme. The primary rationale behind the importance of this scheme is rooted in the mandate of Law Number 25 of 2009, which stipulates that employers must provide special treatment to individuals with disabilities. A crucial priority identified is the provision of
