PROJECT REPORT

Creating And Controlling Seven Segment For Raspberry Pi

by

11.02.0066-Christino

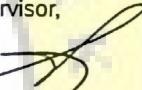

This project report has been approved and ratified by the Dean of Faculty
of Computer Science and Supervisor on October,28 2015

With approval,

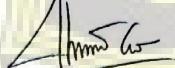

Examiners,

Hironimus Leoni, S.Kom., M.Kom
NPP : 058.1.2007.273

Supervisor,

Suyanto Edward Antonius, Ir., M.Sc
NPP : 058.1.1992.116

Examiners,

Shinta Estri Wahyuningrum, S.Si, M.Cs
NPP : 058.1.2007.272

Examiners,

Rosita Herawati, ST., MIT
NPP : 058.1.2004.263

Dean of Faculty of Computer Science,

Hironimus Leoni, S.Kom., M.Kom

NPP : 058.1.2007.273

STATEMENT OF ORIGINALITY

I, the undersigned:

Name : Christino

ID : 11.02.0066

Certify that this project was made by myself and not copy or plagiarize from other people, except that in writing expressed to the other article. If it is proven that this project was plagiarizes or copy the other, I am ready to accept a sanction.

ABSTRACT

This is a Raspberry Pi project with two digits LED Lamps Seven Segment which created in 10x5 cm² per each. This has two input numbers for starting and stopping numbers.

In this project, the Raspberry Pi is used to operate LED in Seven Segment to display counter numbers. This uses Python Programming Language with arrays data structure to turn on the LED in the seven segment to display numbers as a counter.

This project is a beginning for probably a bigger seven segment display that can be controlled by a Raspberry.

Key Words : Raspberry Pi, Python, Arrays, Led Lamps, Jumper Cable, Resistor, PCB.

PREFACE

The purpose of this project is to implement Raspberry as multifunctional controller, one of those is to build seven segment LED controlled by raspberry pi. This uses Python Programming Language with array data structure to turn on the LED in the seven segment to display numbers as a counter.

This project is seven segmet often found in public places, like a traffic lights, digital clock, calculator, and others. Hopefully with project I made, could be an inspiration and can be developed with a larger project.
